

**Mystery Card Roulette** is an exciting innovation to the game of Roulette. The rules are the same but instead of a traditional Roulette wheel, Table Mountain Casino is introducing the "Mystery Card" version of this world renowned game. Specially made cards numbered 1 thru 36, 0, and 00, are randomly inserted into one of 38 slots on a rotating apparatus. The dealer spins and where it stops, the card is revealed and the winning number is announced ----- what could be easier!!

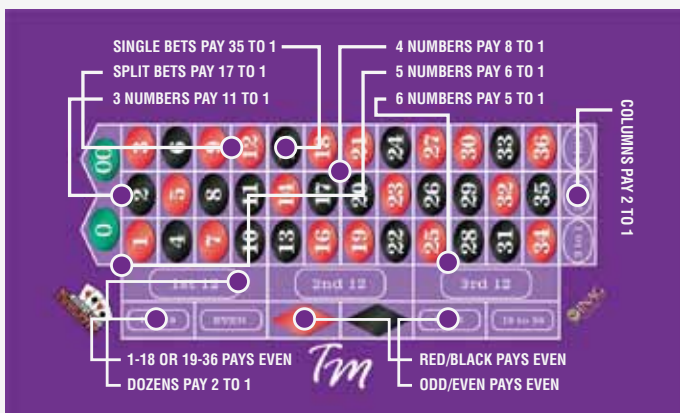

Wagering on this game is simple with two kinds of bets, "Outside" and "Inside".

**Outside Bets that pay Even Money are:** Black or Red, Odd or Even, and Numbers 1-to-18 or 19-to-36.

**Outside Bets that pay 2-to-1:** Columns of 12 numbers or Sections of 12 numbers (Dozens).

**Inside Bets:** Bets made in the interior area of the layout on a specific number or group of numbers and paid at different odds based on the amount of numbers being wagered.
